

SERVICE AND TESTING SCHEDULE

Surface supply - water diving

The schedule shows the minimum level of service and testing recommended by Interspiro. Local requirements and regulations may deviate from this and set higher requirements. Consideration must also be given to the environment of use and how often the apparatus is used. Frequent use and/or use in harmful environments may require shorter intervals.

Qualification levels

| | |
|---------|--|
| Level 1 | User trained in use and handling of equipment |
| Level 2 | Maintenance technician trained and certified at this level |
| Level 3 | Service technician trained and certified at this level |

| After use | | |
|---|---------|---------------------------------|
| Cleaning | Level 1 | eLearning Level 1 / User manual |
| Leakage test | Level 1 | eLearning Level 1 / User manual |
| Visual inspection, surface box and supply hoses | Level 1 | eLearning Level 1 / User manual |

| Before cylinder filling | | |
|---|---------|-------------------|
| Visual inspection - Time left until the next periodic inspection (acc. to the label on the cylinder) - Check for damage on the cylinder / cylinder pack | Level 2 | eLearning Level 2 |

| Every year | | |
|--|---------|--|
| Visual inspection, surface box and supply hoses | Level 2 | eLearning Level 2 / User manual & Service manual |
| Performance test - Performed on calibrated test equipment recommended by Interspiro | Level 2 | eLearning Level 2 / Test instructions |
| Replacement of service parts - Surface box connections (3 pcs) - For regulator unit MKII P+: Freeze protection - T-piece (optional) | Level 2 | eLearning Level 2 / Service manual, Module 2-3 Service manual, Module 2-3 Service manual, Module 2-3 |

| Every 5 years | | |
|--|---------|--|
| Recurrent inspection of cylinders | --- | Audit at Interspiro / other audit firm |
| Replacement of service parts - Cylinder valve / Cylinder pack | Level 3 | Service manual, Module 5 |

| Every 6 years | | |
|--|---------|----------------------------|
| Replacement of service parts - Surface unit, version 300 bar: Surface box connections (3 pcs) - Surface unit, version 300 bar: Warning whistle, shuttle valve & vent inserts - Regulator unit MKII P+ - T-piece (optional) | Level 3 | Service manual, Module 2-3 |

| Every 8 years | | |
|---|---------|----------------------------|
| Replacement of surface supply hoses and adapter hoses | Level 3 | Service manual, Module 2-3 |

| Every 10 years | | |
|--|---------|----------------------------|
| Replacement of service parts - Surface unit, version 70 bar: Surface box connections (3 pcs) - Surface unit, version 70 bar: Warning whistle, shuttle valve & venting inserts - Surface unit, version 70 bar: Regulator (complete replacement unit) - Regulator unit RS4 P+ and Pro P+ | Level 3 | Service manual, Module 2-3 |

| 15 years from date of manufacture | | |
|--------------------------------------|---------|--------------------------|
| Replacement of medium pressure hoses | Level 3 | Service manual, Module 2 |
