

Sauveguard suit with label

The Safeguard suit is a single-use category 3 protective suit (PPE) protecting against risks as defined in EU regulation 2016/425. It provides protection against many CBRN (Chemical, Biological, Radiological and Nuclear) risks. The wearer's body is very effectively protected from chemical substances in liquid or gaseous form.

The suit can be used in many different areas, such as chemical or petroleum industries, waste management, rescue teams and civilian and military security.

- Mechanical and chemical resistance optimized with welded seams
- Suit can be put on very rapidly, in less than 1 minute
- One size fits all with adjustments at the wrists, ankles and waist
- Light-weight suit
- Reinforced soles
- Easy to store
- NATO green color
